PROFILE

Technology and Innovation professional with an Electrical Engineering background and over 4 years of progressive project leadership experience in industrial and renewable energy sectors. Experienced in managing cross-functional engineering projects end-to-end, overseeing budgets, suppliers, and manufacturing processes. Currently supporting strategic marketing and portfolio planning initiatives in a high-precision technology environment, combining technical expertise with market and competitive analysis.

PROFESSIONAL EXPERIENCE

12/2024 – Present
Germany

Working Student - Strategic Marketing (Motion & Sensing)
attocube systems AG

- Conduct market and competitive analyses for nanopositioners and precision sensor systems to support product positioning and portfolio decisions
- Gather and structure customer and application requirements for product strategy development
- Support planning and facilitation of strategic workshops for portfolio and roadmap alignment
- Develop executive presentations for product strategy and long-term portfolio planning
- Contribute to planning and execution of marketing initiatives across distributor and partner networks
- Developed and structured a Distributor Knowledge Database (KDB) in SharePoint to improve information accessibility and coordination

05/2023 – 09/2024
Germany

Research Assistant
Hochschule Harz

- Supported academic and applied research projects through structured data collection and analysis
- Conducted literature reviews and synthesized findings for research documentation
- Prepared reports and analytical summaries for research publications and internal presentations
- Assisted in organizing research datasets and maintaining documentation standards

01/2021 – 12/2021
India

Project Manager
Falcon Pumps Pvt. Ltd.

- Led end-to-end execution of solar PV and motor engineering projects from feasibility through commissioning
- Conducted site assessments, feasibility studies, and regulatory compliance planning
- Managed procurement and vendor coordination for panels, inverters, motors, and manufacturing components
- Oversaw installation and manufacturing activities ensuring adherence to safety and quality standards
- Controlled project budgets, tracked manufacturing costs, and maintained profitability targets
- Allocated cross-functional resources across R&D, production, and engineering teams
- Implemented risk mitigation plans addressing supply chain and technical risks
- Served as primary interface between clients, suppliers, and internal stakeholders

01/2020 – 12/2020
India

Junior Project Manager
Falcon Pumps Pvt. Ltd.

- Maintained project trackers, Gantt charts, and progress dashboards
- Facilitated cross-departmental coordination between engineering, procurement, and site teams
- Monitored budgets, change orders, and risk indicators

- Prepared structured stakeholder reporting and meeting documentation

06/2019 – 12/2019
India

Project Management Trainee
Falcon Pumps Pvt. Ltd.

- Rotated across production, quality, and engineering departments
- Supported planning, execution, and project closure activities
- Assisted in schedule monitoring and operational coordination

EDUCATION

2023 – Present
Germany

Master in Technology & Innovation Management
Hochschule Harz
Focus Areas: Strategic & Innovation Management, Product Lifecycle Management, Digital Business Models, Agile Engineering, Big Data

2016 – 2019
India

Bachelor of Electrical Engineering
University of Pune
Focus Areas: Automation, Industrial Engineering, Microprocessors, Renewable Energy Systems

CORE COMPETENCIES

Strategy & Analysis
Market Analysis | Competitive Intelligence | Portfolio Planning | Requirements Gathering | Workshop Facilitation

Technical & Tools
MS Project | Primavera | ERP Systems | SharePoint | Advanced Excel | PowerPoint

Project & Operations Management
End-to-End Project Delivery | Budget Control | Vendor Management | Risk Mitigation | Resource Planning | Manufacturing Oversight

Languages
English (Fluent) | Hindi (Fluent) | German (A2 – improving)
